SUMMARY OF QUALIFICATIONS

- 5+ years of combined co-op and professional experience in software development, cloud systems, and cybersecurity, delivering scalable and secure applications across front-end and back-end environments.
- Proficient in Python, Java, C#, JavaScript, React.js, and SQL, with hands-on experience in AI-driven development, cloud platforms (AWS, Azure), CI/CD pipelines, and Docker.
- Applied Agile and SDLC best practices across multiple co-op and consulting roles, contributing to projects that enhanced system reliability, performance, and user experience.
- Strong background in database design and optimization (SQL Server, PostgreSQL, MongoDB) and DevOps practices (Git, Jenkins, automated testing).
- Demonstrated leadership and problem-solving skills through academic and industry projects, including leading website redesigns and optimizing enterprise workflows.
- Recognized for clear communication and cross-functional collaboration, ensuring delivery of solutions that meet both technical and business requirements.

TECHNICAL SKILLS

- Programming: Python, Java, JavaScript, C#, C, C++, SQL, Kotlin, Swift, Dart, React.js, Node.js, TypeScript, Bash
- Web Development: HTML, CSS, Bootstrap, ASP.NET, DNN, Angular
- Databases: SQL Server, Oracle DB, PostgreSQL, NoSQL (MongoDB)
- Cloud and DevOps: AWS, Azure, Git, Jenkins, CI/CD pipelines, Docker, Kubernetes, Jira
- Development Methodologies: Agile/Scrum, Waterfall, Iterative SDLC, Test-Driven (TDD) and Behaviour-Driven (BDD) Development
- Cybersecurity Tools: SIEM, IDS/IPS, Wireshark, Vulnerability Scanning, Risk Mitigation

CERTIFICATIONS AND PROFESSIONAL DEVELOPMENT

Google Cybersecurity Professional Certificate – *Coursera*   October 2025
- Completed 8 hands-on courses covering Python, Linux, SQL, SIEM tools, and IDS, emphasizing threat detection, risk management, and automation in cybersecurity.

Python Basics for Data Science (PY0101EN) – *IBM, edX*   March 2025
- Gained proficiency in Python programming, data structures, and data manipulation for analytics applications.

EDUCATION

Honours Bachelor of Computer Science (Mobile Computing)
Sheridan College, Oakville, ON   May 2022 – December 2024
- Bridged from Advanced Diploma; completed three co-op terms.

Advanced Diploma in Software Development and Network Engineering
Sheridan College, Brampton, ON   September 2018 – December 2021
- Completed a three-year co-op program with three co-op terms.

WORK EXPERIENCE

Technology Consultant - Development and Support

Roots Funding, Mississauga, ON   January 2025 – Present

- Develop new website features to enhance platform functionality and user experience, while optimizing existing pages for accessibility, responsiveness, and performance.
- Conduct website testing to identify and resolve bugs, improving overall platform uptime and reducing downtime incidents.
- Apply security updates and perform regular maintenance, strengthening data protection and minimizing vulnerabilities.

Web Developer [Contract]

Georgetown Medical Associates, Georgetown, ON   September 2024 – December 2024

- Designed and launched a responsive website using HTML, CSS, and JavaScript, enhancing patient access to real-time clinic information.
- Optimized navigation and layout for accessibility (AODA compliance), leading to stronger patient engagement.
- Maintained and updated site content to ensure accurate and reliable online resources.

Junior .NET Software Developer [Co-op]

Naryant, Oakville, ON   January 2024 – August 2024

- Developed and debugged MVC applications with HTML, CSS, jQuery, SQL, and Bootstrap, enhancing usability and performance.
- Created and executed structured test cases, improving application quality and reducing defects before release.
- Supported the redesign of a large-scale data collection system, improving scalability and overall processing speed.

Consultant: Website and RPA Testing [Co-op]

SigmaRPA Inc., Mississauga, ON   May 2023 - August 2023

- Designed and implemented RPA solutions using Blue Prism, automating repetitive workflows and saving significant staff time.
- Supported website enhancements, improving navigation and accessibility for end users.

Managed Services Technician [Co-op]

Softchoice Corporation, Oakville, ON   January 2020 - December 2020

- Provided technical support for enterprise networks, resolving incidents and improving overall system reliability.
- Processed MAC requests, corrected device configurations, and monitored alarms to prevent potential outages.

PROJECTS

Capstone Project – Chef It Up (GitHub Repository)   September 2021 - December 2021

- Built an Android app using Android Studio, Kotlin, Java, and Firebase.
- Implemented gamification features such as points and rewards to improve engagement.
- Designed and tested an intuitive user interface for first-time users.
